PROPERTY OWNER PURCHASES ANOTHER 332 UNITS IN LAKE HIGHLANDS

DALLAS, TX 10/02/2012: Following his latest success at The Solaris, Dallas property owner Nessel Development has purchased another two communities in Lake Highlands. Plans for the redevelopment of the communities will include combining them to create one complete 332 unit community named The Alista which will cater to the growing population of the Lake Highlands neighborhood.

“We love the Lake Highlands neighborhood and have been successful in bringing our eco conscious, quality of life style renovations to the residents. Our goal is always to improve the world around us and by taking existing communities and enhancing them to levels they never achieved previously, that is exactly what we are doing.”
Ariel Nessel, President of Nessel Development said.

The already renovated communities of The Azul, Lake Highlands Landing (recently sold) and The Solaris include upgrades like the addition of Dog parks, Business centers, playgrounds, upgraded appliances, stylish cabinetry & various other lifestyle modifications. After adding The Solaris in late 2010 the communities of Country Squire and Kingsborough (10028 Royal Lane, Dallas TX 75238) will be the latest to undergo the Nessel Development repositioning.
